

MUSKAAN HUSSAIN

Brooklyn, NY | muskaannhussainn@gmail.com | +1 (347) 930-1199 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Construction management professional with 4+ years across project delivery, jobsite coordination, cost estimating, scheduling, and BIM coordination on commercial, institutional, aviation, laboratory, and residential projects in the US and India, including JFK Terminals 1 and 6 and Barclays Center. Hands-on with RFIs, submittals, change orders, bidding, procurement, permitting, and subcontractor coordination; applies AI tools, custom plugins, and Python and Excel automation to cut manual reporting and estimating work. Architect by training. MS Construction Management candidate at NYU Tandon.

EDUCATION

NYU Tandon School of Engineering, New York, USA

09/2025 – 05/2027

MS Construction Management, GPA 3.9 | Concentration with NYU Stern: Real Estate Development and Entrepreneurship

Coursework: BIM, Cost Estimating, Project Scheduling, Contracts and Specifications, Construction Law, Construction Accounting and Finance, Risk Analysis, Construction Marketing, Real Estate Development

Jawaharlal Nehru Architecture & Fine Arts University, Telangana, India

06/2018 – 06/2023

Bachelor of Architecture, GPA 3.8

SKILLS

Software: Procore, Primavera P6, Primavera Risk Analyzer, MS Project, Bluebeam Revu, Revit, Navisworks, AutoCAD, Civil 3D, BIM 360, Autodesk Construction Cloud (ACC), ArchiCAD, Tekla, Bentley, Dynamo, Revizto, Track3D, OpenSpace, Autodesk ReCap, CloudCompare, Insta360, SketchUp, Rhino, Enscape, 3ds Max, Python, Excel VBA, Power Query, BeamAI

Competencies: Construction Project Management, Project Controls, CPM Scheduling, Cost Estimating and Budget Tracking, Quantity Takeoff and BOQ, Bidding and Procurement, Contract Administration and Specifications (CSI MasterFormat), RFIs, Submittals, Change Orders, Permitting and Regulatory Approvals, Subcontractor and Site Coordination, Design-Bid-Build, Design-Build, Constructability Review, Quality Assurance and Quality Control, Safety Documentation, Progress Reporting, Pay Applications and Invoice Review, Closeout, BIM Coordination and Clash Detection, VDC and Reality Capture, Facade Systems, Interior Fit-Out, LEED, Risk Analysis, Construction Law, Construction Accounting and Finance, Construction Marketing, Python and VBA Automation, AI Workflow Automation, Plugin Development

CERTIFICATIONS

OSHA 30-Hour Construction Safety (2026); Procore Certified; Autodesk Revit Certified Professional; Construction Estimating: Specifications and CSI MasterFormat; SWAC Certification; Architect (Council of Architecture, India); IGBC Green Associate

PROFESSIONAL EXPERIENCE

Engineta, LLC (Curtis Partition)

05/2026 – 08/2026

VDC Intern, New York, NY | Projects: JFK Terminals 1 and 6, QIAA, Bank of New York, Barclays Center, Apollo Theater

- Led weekly coordination meetings with site foremen, trade partners, and general contractor teams from AECOM Hunt, Tishman, Holt Construction, and Shawmut; authored weekly progress reports for project leadership.
- Validated installed quantities against coordinated models in Track3D, Bluebeam, and Autodesk Construction Cloud, flagging field discrepancies to project engineers and superintendents.
- Performed trade coordination in Revit against as-built conditions, resolving clashes and supporting RFIs with field-verified data.
- Managed daily 360-degree site captures and laser scans (40+ per week), integrating scan data into Track3D progress tracking.
- Applied AI tools to streamline documentation and reporting, building custom plugins, Python scripts, and Excel VBA macros that merge payroll and man-day data into labor budget variance reports, flagging cost deviations and cutting report prep by 70%.

NYU Tandon School of Engineering

01/2026 – 05/2026

Project Assistant, Campus Planning & Technical Services, New York, NY | Projects: NYU Tandon Brooklyn campus, including 2, 3, 5, and 6 MetroTech Center and 370 Jay Street

- Produced conceptual plans, sections, and technical documentation in Revit, AutoCAD, and SketchUp for renovation approvals.
- Coordinated deliverables with facilities, planning, and technical services staff; supported constructability reviews.

Haddonstone

06/2024 – 08/2025

BIM Engineer, Colorado, USA

- Modeled 35+ cast-stone facade, site, and landscape packages in Revit across US, UK, and India teams; designed a custom Revit and AutoCAD facade documentation system with customized tool palettes, adopted company-wide as production standard and reducing drawing errors through automated modeling and quality checks.
- Reviewed shop drawings for fabrication and client approvals, resolved detailing conflicts with architects and contractors, and coordinated revisions from design changes and RFIs; presented cast-stone solutions to NYC firms including Stonehill Taylor.
- Performed quantity take-offs and material schedules from BIM models for estimating and procurement, integrating BeamAI and custom AI tools to auto-calculate quantities for faster, more accurate client quotations.

Signature Solutions

07/2023 – 05/2024

Junior Architect, Fall River, MA

- Produced permit-ready and construction drawing sets in Revit and AutoCAD for 10+ residential, commercial, and government projects in New York and Massachusetts; prepared and responded to RFIs and submittals through closeout.
- Owned project schedules and budgets for 10+ renovation projects from bidding and procurement through permitting and closeout, coordinating subcontractors, consultants, and regulatory authorities to hold dates and costs.
- Managed design-bid-build delivery including bidding, purchasing and procurement, logistics, and contracts and specifications; reviewed construction contracts and legal documents.
- Led client and consultant meetings, coordinating change orders and approvals; produced 3D visualizations for 40+ client presentations; handled documentation control and hour tracking.

Accedo

06/2022 – 06/2025

Architect and Project Manager | Interior design and fit-out practice for residential, commercial, and retail clients

- Designed 40+ residential, commercial, retail mall, institutional, and interior fit-out projects (\$1M – \$10M each) and delivered 10+ through construction completion, including a Nestlé laboratory (LAB SOLUTIONS), an Indian Army building (Delhi), a tunnel development (Saudi Arabia), and a residential building for Yonatan Stein Architects Ltd (Middle East).
- Prepared construction drawings, BOQs, and specifications; coordinated contractors, consultants, and vendors; managed schedules, budgets, site visits, and revisions through handover.
- Led interior design as the practice's core service: concept, layouts, material and finish specifications, lighting, custom furniture detailing, and on-site installation, including laboratory space planning.
- Converted 2D AutoCAD drawings into a coordinated Revit BIM model for a multi-storey tower (360Life Design Studio); produced 150+ photorealistic visualizations and AR/VR walkthroughs in Enscape and 3ds Max for UrbanZen presentations and marketing.
- Delivered documentation in Hebrew and Arabic for Middle East clients; led the practice's marketing and business development.
- Clients: Yonatan Stein Architects Ltd, LAB SOLUTIONS, 360Life Design Studio, UrbanZen, RS Design & Construction, RR Associates.

Maple Renaissance

01/2022 – 06/2023

Assistant Project Manager, Mumbai, India | Projects: Microsoft facilities, Katara Building

- Oversaw logistics, resource coordination, scheduling, procurement, and on-site coordination for 2 concurrent commercial projects, maintaining photographic progress reports for clients.
- Tracked project budgets, reviewed subcontractor invoices and pay applications, and served as direct client contact.

RESEARCH

NYU Tandon Building Informatics & Visualization Lab (biLAB)

09/2026 – 12/2026

Independent Study (MS coursework), New York, NY | Advised by Prof. Semiha Ergan

- Digital twins and AI/ML-driven construction automation; Python tooling for progress monitoring from jobsite capture data.

The Urban Flux

12/2024 – 08/2025

Researcher

- Researched computational design tools in urban planning workflows to simplify and partially automate existing processes.

AFFILIATIONS AND TEACHING

Guest Lecturer, Vaishnavi School of Architecture and Planning (04/2025): career development lecture to 70+ final-year students, Revit and BIM workshops for 15+ students, and one-on-one mentoring for 10+ students. CMAA Metro NY/NJ Chapter, student member. Practicing artist.
